Sofia Vindevogel or Tanja Meyer,
Bio Base Europe Pilot Plant,
Rodenhuizekaai 1, 9042 Gent,
Belgium.
E-mail: jobs@bbeu.org

The Bio Base Europe Pilot Plant, located in Ghent, is an open innovation pilot facility with a market focus on building block chemicals, food and feed ingredients, nutraceuticals, flavors, fragrances, enzymes, plant protection agents and many more. With its 70 employees, Bio Base Europe Pilot Plant assists companies by bridging the gap between laboratory research and industrial production, and supports the bio-based economy by development, optimization and scale up of bio-based processes and products.

The BioBase4SME network advises SMEs from across North-West Europe on how to develop new ideas into marketable products. The project intends to help Start-ups and SME to overcome technological and non-technological barriers to bring their innovation to market. The project offers to SMEs: Professional Training and technical Workshops, Innovation Bio camps and Innovation coupons.

Profile

- You are a student of marketing, social science, communication or similar.
- You are confident, working independently and you are a good communicator.
- You have excellent verbal and written English language skills.
- You are well organised and have an analytical way of thinking.

Activities

- Gaining awareness about the bio-based economy and the impact to its markets.
- Involvement in a European project.
- Setting up a methodology to evaluate the impact of the project outputs.
- Analysis of evaluation feedback forms from workshops, bio camps and coupons.
- Writing a synthesis report of the findings.

We offer a dynamic, international and young working environment. You are based at the Bio Base Europe Pilot Plant, situated in the port of Ghent in Belgium. The position is offered for a timeframe of 2-3 month. Remuneration according to the federal government guidelines for intern salaries. The working time per week depends on the student's availability. The task can be carried out during an internship or as a student assistant.

A suitable student can start immediately.
